Kleinanzeigen Business: Offer Knowledge Base 2026

Fictional demo document. This knowledge base is invented for the Ironhack AI Consulting & Integration Bootcamp lab "Architect the bot someone will actually pay for". It is not affiliated with or endorsed by Kleinanzeigen. Every package, price, rule and team name in this document is fictional.

Purpose. The sales team and the lead qualification agent use this document to answer business inquiries, match a business to the right seller package, category bundle and advertising format, and draft accurate replies. Only the current 2026 offers in Sections 1 to 9 and the FAQ are valid. Section 10 is an archive of the 2025 price list and must not be quoted to customers.

Document owner: B2B Sales Operations (fictional). **Version:** 2026.1. **Valid from:** 1 January 2026. **Prices:** all prices are monthly, in euro, excluding 19% German VAT, unless stated otherwise.

- Section 8: Package guide for sales
- Section 9: Sales teams and handoff
- Section 10: Archive, 2025 price list (no longer valid)
- Section 11: Frequently asked questions

Section 1: About Kleinanzeigen Business

Kleinanzeigen Business is the commercial seller programme of the classifieds marketplace in this fictional scenario. It lets registered businesses list products and services next to private sellers, with a verified business profile, higher listing limits, team accounts, bulk tools and paid promotion. Private individuals who sell occasionally do not need a business package; they can keep using the free private seller account.

Kleinanzeigen Business serves four groups of customers: small local shops and tradespeople with a few dozen listings, growing retailers with a few hundred listings, professional dealers and agencies with up to a thousand listings, and large chains or platforms that connect their own inventory system. Each group maps to one seller package in Section 2.

A verified business profile shows the company name, legal address (Impressum), logo, opening hours and a short description. Buyers see a "Verified business" badge on every listing. Verification is required before any business package becomes active (see Section 6).

Business customers can combine three building blocks: a seller package (the base subscription that sets listing limits, users and tools), an optional category bundle (extra features for one category, such as vehicles or real estate) and optional advertising (paid visibility for single listings or the whole brand). Sales staff should always recommend the three blocks in this order: package first, then bundle, then advertising.

Section 2: Business seller packages

There are four seller packages in 2026: Basic, Plus, Pro and Enterprise. All packages include the verified business profile, the "Verified business" badge, buyer messaging in the business inbox and an invoice with VAT. Packages differ in active listing limit, number of users, upload tools, included promotion credits and statistics.

Package	Price / month	Active listings	Users	Upload tools	Credits / month	Statistics
Basic	EUR 29	up to 50	1	Manual	2	Basic views
Plus	EUR 79	up to 250	3	Manual + CSV	10	Views, messages
Pro	EUR 199	up to 1,000	10	CSV + API	40	Advanced, export
Enterprise	from EUR 549	above 1,000	Unlimited	API + custom feed	Custom	Advanced + reports

2.1 Basic package

The Basic package costs EUR 29 per month excluding VAT. Basic allows up to 50 active listings at the same time, one user, manual listing creation in the web app and mobile app, 2 Top listing credits per month and basic view statistics per listing. Basic suits small local shops, single tradespeople and hobby businesses that are moving from a private account to a business profile. Basic does not include CSV bulk upload, API access or team accounts. A 14-day free trial is available for Basic.

2.2 Plus package

The Plus package costs EUR 79 per month excluding VAT. Plus allows up to 250 active listings at the same time, three users, manual creation plus CSV bulk upload, 10 Top listing credits per month and statistics for views and buyer messages. Plus suits growing retailers, second-hand shops and small dealers that publish new stock every week. Plus is the minimum package for the Vehicles and Real estate category bundles. A 14-day free trial is available for Plus.

2.3 Pro package

The Pro package costs EUR 199 per month excluding VAT. Pro allows up to 1,000 active listings at the same time, ten users, CSV bulk upload and API access for automatic listing sync, 40 Top listing credits per month, advanced statistics with CSV export and a dedicated onboarding call with a specialist. Pro suits professional dealers, agencies and multi-location retailers. There is no free trial for Pro; instead, the first month can be cancelled at any time within 30 days.

2.4 Enterprise package

The Enterprise package starts at EUR 549 per month excluding VAT and is priced individually by the Enterprise sales team. Enterprise covers more than 1,000 active listings, unlimited users, API access plus a custom inventory feed integration, custom promotion credit volumes, monthly performance reports, a named account manager and a service level agreement with 99.5% platform availability for the API. Enterprise suits national chains, large dealer groups and platforms that connect their own inventory system. Enterprise contracts run for 12 months.

2.5 What counts as an active listing

An active listing is any listing that is visible to buyers. Paused, expired, sold and draft listings do not count toward the limit. When a business reaches its active listing limit, new listings are saved as drafts until older listings expire or the business upgrades. Listings expire automatically after 60 days unless renewed. Each package's listing limit is shared by all users on the account.

2.6 Upgrading and downgrading packages

A business can upgrade its package at any time; the new limit is active immediately and the price difference is charged pro rata for the rest of the month. A downgrade takes effect at the start of the next billing period. If the business has more active listings than the lower package allows, the oldest listings are paused automatically after the downgrade.

Section 3: Category bundles

Category bundles are optional add-ons on top of a seller package. A bundle adds features that only make sense in one category. A business can book more than one bundle. Bundles are billed monthly together with the package and can be cancelled monthly. Listings in a bundle category still count toward the package's active listing limit.

Bundle	Add-on price / month	Minimum package	Key features
Vehicles Dealer	EUR 49	Plus	Vehicle data fields, financing link, test drive request
Real Estate Agent	EUR 69	Plus	Expose PDF, viewing scheduler, broker permit badge
Home & Garden Retail	EUR 20	Basic	Delivery badge, room filters, 5 extra Highlight credits
Electronics Pro	EUR 29	Basic	Refurbished badge, warranty field, condition grades
Fashion Store	EUR 19	Basic	Size and brand filters, collections, 5 extra Highlight credits
Services Local	EUR 25	Basic	Booking request button, service radius, review prompt

3.1 Vehicles Dealer bundle

The Vehicles Dealer bundle costs EUR 49 per month on top of the seller package and requires at least the Plus package. It adds structured vehicle data fields (first registration, mileage, inspection date, fuel type, emission class), a financing calculator link to the dealer's own financing partner, a "Request test drive" button and a dealer badge on every vehicle listing. Vehicle dealers with more than 250 vehicles in stock should combine the bundle with the Pro package so that their dealer management system can sync stock through the API.

3.2 Real Estate Agent bundle

The Real Estate Agent bundle costs EUR 69 per month on top of the seller package and requires at least the Plus package. It adds an expose PDF upload for each property, a viewing scheduler where interested buyers or tenants pick a time slot, a floor plan field and a broker permit badge. Agents must upload proof of their broker permit during verification. Property managers who only rent out their own flats do not need this bundle; they can use a standard package.

3.3 Home & Garden Retail bundle

The Home & Garden Retail bundle costs EUR 20 per month on top of the seller package and works with any package, including Basic. It adds a "Delivery available" badge with the delivery radius, room filters (living room, bedroom, kitchen, garden) so buyers find furniture by room, a "Used, good condition" quality label for second-hand furniture and 5 extra Highlight credits per month. Furniture stores, second-hand furniture warehouses and garden centres are the typical customers.

3.4 Electronics Pro bundle

The Electronics Pro bundle costs EUR 29 per month on top of the seller package and works with any package. It adds a "Refurbished" badge, a warranty field (in months), condition grades (A, B, C) and a serial number field that is hidden from buyers. Refurbishers and electronics repair shops are the typical customers. Sellers of new electronics can use the bundle for the warranty field only.

3.5 Fashion Store bundle

The Fashion Store bundle costs EUR 19 per month on top of the seller package and works with any package. It adds size and brand filters, collections (a group of listings shown together, such as "Winter 2026") and 5 extra Highlight credits per month. Vintage stores and small fashion boutiques are the typical customers.

3.6 Services Local bundle

The Services Local bundle costs EUR 25 per month on top of the seller package and works with any package. It adds a "Request booking" button, a service radius around the business address, opening hours on each listing and an automatic review prompt after a completed job. Craftspeople, cleaners, movers, tutors and repair services are the typical customers. Service listings count toward the active listing limit like product listings.

3.7 Categories without a bundle

Businesses in other categories, such as books, toys, sports equipment or hobby supplies, use a standard seller package without a category bundle. They can still buy every advertising format in Section 4.

Section 4: Advertising and promotion formats

Advertising increases the visibility of single listings or of the whole business. Listing promotions (Top listing, Highlight, Gallery) can be bought one by one or paid with promotion credits that are included in seller packages. Brand advertising (Display banner, Newsletter slot) is sold by the Advertising sales team and is not included in any package.

Format	What it does	Duration	Price
Top listing	Moves the listing to the top of its category search results	7 days	EUR 4.99 or 1 credit
Highlight	Coloured frame around the listing in search results	10 days	EUR 2.99 or 1 credit
Gallery	Listing shown in the category gallery on the start page	7 days	EUR 9.99 or 3 credits
Display banner	Brand banner on category or search pages	Campaign	EUR 8 per 1,000 views, min. EUR 500
Newsletter slot	Featured block in a regional buyer newsletter	One send	EUR 350 per region

4.1 Top listing

A Top listing moves one listing to the top of the search results in its category for 7 days. It costs EUR 4.99 when bought alone or 1 promotion credit. Top listing is the most effective format for promoting a business's best items, because buyers see it first. A Top listing does not extend the 60-day listing lifetime.

4.2 Highlight

A Highlight adds a coloured frame around one listing in search results for 10 days. It costs EUR 2.99 when bought alone or 1 promotion credit. Highlight is cheaper than Top listing and is used to make many items stand out at once, for example a full new collection. Highlight and Top listing can be combined on the same listing.

4.3 Gallery

A Gallery placement shows one listing in the category gallery on the start page for 7 days. It costs EUR 9.99 when bought alone or 3 promotion credits. Gallery has the widest reach of the listing promotions and suits high-value items such as vehicles, designer furniture or properties.

4.4 Display banner

A Display banner campaign shows the business's brand banner on chosen category or search pages. Display banners are priced at EUR 8 per 1,000 views with a minimum campaign budget of EUR 500. Campaigns are targeted by category and region (federal state or city). Display banners are sold only by the Advertising sales team and require at least the Plus package.

4.5 Newsletter slot

A Newsletter slot places a featured block about the business in one regional buyer newsletter. It costs EUR 350 per region and send. Regions are Berlin, Hamburg, Munich, Cologne/Rhine-Ruhr, Frankfurt/Rhine-Main and Stuttgart. Newsletter slots are sold only by the Advertising sales team.

4.6 Promotion credits

Promotion credits are included in seller packages each month (Basic 2, Plus 10, Pro 40, Enterprise custom) and can be spent on Top listing (1 credit), Highlight (1 credit) or Gallery (3 credits). Unused included credits expire at the end of the month. Extra credit packs can be bought at any time: 20 credits for EUR 79 or 50 credits for EUR 179. Credits from packs are valid for 12 months.

Section 5: Pricing, billing, trial and cancellation

5.1 Prices and VAT

All prices in this knowledge base are in euro and exclude 19% German VAT. Invoices show the net price, VAT and gross price. Businesses with a valid EU VAT ID outside Germany are invoiced under the reverse charge rule.

5.2 Monthly and annual billing

Seller packages can be paid monthly or annually. Annual billing gives two months free: the business pays 10 monthly prices for 12 months. Example: Plus annual costs EUR 790 instead of EUR 948 per year. Category bundles are always billed monthly. Enterprise contracts are billed monthly on invoice with 30-day payment terms.

5.3 Payment methods

Basic, Plus and Pro can be paid by SEPA direct debit or credit card. Enterprise is paid by bank transfer on invoice. Listing promotions bought one by one can also be paid by PayPal.

5.4 Free trial

Basic and Plus include a 14-day free trial. During the trial the business has the full package features, but promotion credits are limited to 2. If the business does not cancel before the trial ends, the monthly package starts automatically. Pro and Enterprise have no free trial; Pro can instead be cancelled within the first 30 days with a full refund of the first month.

5.5 Cancellation

Monthly packages can be cancelled at any time with effect at the end of the current month. Annual packages can be cancelled with effect at the end of the 12-month term; there is no refund for unused months. Enterprise contracts run for 12 months and renew for another 12 months unless cancelled three months before the end.

5.6 Discounts

There are three standard discounts: annual billing (two months free), credit packs (lower price per credit) and a 20% discount on the first three months of Pro for businesses that move from a competitor marketplace and show proof of an active listing there. Sales staff may not offer other discounts. Enterprise pricing is negotiated by the Enterprise sales team only.

Section 6: Onboarding, verification and bulk upload

6.1 Business verification

Every business package requires verification before it becomes active. The business provides the legal company name, legal address for the Impressum, a VAT ID or tax number, the name of a responsible person and, for real estate agents, proof of the broker permit. A commercial register entry is optional. Verification is usually completed within 2 business days. Listings can be prepared as drafts during verification.

6.2 Time to go live

Basic and Plus customers can go live as soon as verification is complete, usually within 2 business days. Pro customers get a dedicated onboarding call in their first week and typically go live within 5 business days. Enterprise customers start with a kickoff workshop; a custom feed integration usually takes 3 to 6 weeks.

6.3 CSV bulk upload

Plus, Pro and Enterprise include CSV bulk upload. The business downloads the CSV template, fills one row per listing (title, description, price, category, condition, image links) and uploads up to 1,000 rows per file. Errors are shown per row. CSV upload is the fastest way for retailers with 50 to 1,000 items to publish their stock.

6.4 API access

Pro and Enterprise include API access for automatic listing sync from a shop system, dealer management system or inventory tool. The API supports creating, updating, pausing and deleting listings and reading buyer messages. The rate limit is 10 requests per second on Pro; Enterprise limits are agreed in the contract. API keys are created in the business settings.

6.5 Custom inventory feed

Enterprise customers can connect a custom inventory feed (XML or JSON) that is read every hour. The feed integration is set up by the Enterprise integration team during onboarding. Custom feeds are not available on Pro.

FICTIONAL DEMO DOCUMENT - not affiliated with or endorsed by Kleinanzeigen. All offers, prices and rules are invented for an Ironhack lab.

Section 7: Rules for commercial sellers

7.1 Who must use a business account

Anyone who sells regularly with the intention of making a profit, sells new goods bought for resale, or offers services as a business must use a business account with a verified profile. Private individuals who sell their own used items from time to time can keep a free private account and do not need a business package. Sales staff should not sell a package to a private seller with only a few items; the free private account is the right answer for them.

7.2 Legal information on listings

Business listings must show the Impressum, the right of withdrawal for consumers where it applies, and correct prices including VAT for consumer buyers. The verified business profile fills in the Impressum automatically.

7.3 Prohibited and restricted items

Businesses may not list weapons, drugs, counterfeit goods, stolen goods, prescription medicine, tobacco or alcohol without the required licence, or live animals (except through the separate animal welfare rules). Listings that break these rules are removed, and repeated breaks lead to suspension of the business account without refund.

7.4 Duplicate listings

The same item may be listed only once. Duplicate listings of the same item in several categories or cities are removed. Bulk uploads are checked for duplicates automatically.

7.5 Data protection

Buyer messages and contact data received through the business inbox may only be used to answer the buyer's request. Businesses may not add buyers to marketing lists without separate consent.

Section 8: Package guide for sales

Use this guide to match a business inquiry to the right package, bundle and promotion. Always recommend the smallest package that covers the business's current active listings with room to grow by about 20%.

Active listings needed	Recommended package	Typical customer
Private seller, a few items	No package: free private account	Individual clearing out a flat
1 to 50	Basic	Local shop, single tradesperson
51 to 250	Plus	Growing retailer, small dealer
251 to 1,000	Pro	Professional dealer, agency, multi-location retailer
More than 1,000, or custom feed needed	Enterprise	Chain, dealer group, platform

8.1 Matching rules

- If the business needs API sync with its own system, recommend at least Pro, even below 251 listings.
- If the business is a vehicle dealer or real estate agent, recommend at least Plus plus the matching bundle.
- If the business asks how to promote its best items, recommend Top listing for the few best items and Highlight for a larger group; use included credits first.
- If the business asks about brand awareness or campaigns, hand over to the Advertising sales team (Display banner, Newsletter slot).
- If the business is unsure about volume, recommend Plus with the 14-day trial and review after the trial.

8.2 Example matches

Example 1: A second-hand furniture warehouse wants to list about 150 items a month and promote its best pieces. Recommended: Plus package (up to 250 listings, CSV upload, 10 Top listing credits), Home & Garden Retail bundle (delivery badge, room filters, 5 extra Highlight credits), and Top listing for the best pieces.

Example 2: A car dealer group with 1,400 vehicles and its own dealer management system. Recommended: Enterprise package with custom feed, Vehicles Dealer bundle, and a Display banner campaign through the Advertising sales team.

Example 3: A tutor offering maths lessons in one city with three listings. Recommended: Basic package with the Services Local bundle, or the free private account if the tutor is not registered as a business.

Example 4: A private person selling two used bicycles. Recommended: no package; the free private account is enough.

8.3 Information needed before a recommendation

Before recommending a package, sales staff need: the business category, the expected number of active listings, whether the business needs API sync, the start date and the monthly budget for promotion. If any of these are missing, ask one short follow-up question that covers the missing items.

Section 9: Sales teams and handoff

Team	Handles	Response target
SMB Sales	Basic and Plus inquiries, trials, bundle questions	1 business day
Mid-Market Sales	Pro inquiries, API questions, competitor switch discount	1 business day
Enterprise Sales	Enterprise inquiries, custom feeds, contract pricing	4 business hours
Advertising Sales	Display banner and Newsletter slot campaigns	1 business day

Seller Support	Existing customers: billing, account, technical issues	2 business days

Inquiries from existing customers about billing or technical problems are not sales leads and go to Seller Support. Inquiries that mention more than 1,000 listings, a custom feed, a dealer group or a display budget of EUR 500 or more should reach the Enterprise or Advertising sales team the same day.

Section 10: Archive, 2025 price list (NO LONGER VALID)

Warning: this section is an archive. The 2025 prices and limits below expired on 31 December 2025 and must not be quoted to customers. Use the 2026 packages in Section 2.

Package (2025)	Price / month (2025)	Active listings (2025)	Users (2025)	Top listing credits (2025)
Basic 2025	EUR 24	up to 40	1	1
Plus 2025	EUR 69	up to 200	2	8
Pro 2025	EUR 179	up to 800	5	30
Enterprise 2025	from EUR 499	above 800	Unlimited	Custom

Archive note, 2025 Plus package: in 2025 the Plus package cost EUR 69 per month and allowed up to 200 active listings and two users. This offer is no longer valid; the 2026 Plus package costs EUR 79 and allows 250 listings and three users.

Archive note, 2025 Pro package: in 2025 the Pro package cost EUR 179 per month and allowed up to 800 active listings. This offer is no longer valid; the 2026 Pro package costs EUR 199 and allows 1,000 listings.

Archive note, 2025 bundles: in 2025 the Home & Garden Retail bundle cost EUR 15 per month without extra Highlight credits, and the Vehicles Dealer bundle cost EUR 39 per month. These prices are no longer valid.

Archive note, 2025 advertising: in 2025 a Top listing cost EUR 3.99 for 5 days and a Highlight cost EUR 1.99 for 7 days. These prices and durations are no longer valid.

Section 11: Frequently asked questions

FAQ 1. Which package fits a business with about 150 listings a month?
The Plus package, which allows up to 250 active listings, three users and CSV bulk upload for EUR 79 per month excluding VAT.

FAQ 2. Which package fits a business with 600 listings?
The Pro package, which allows up to 1,000 active listings, ten users and API access for EUR 199 per month excluding VAT.

FAQ 3. When do we need Enterprise?
Enterprise is needed above 1,000 active listings or when a custom inventory feed is required. It starts at EUR 549 per month and is priced by the Enterprise sales team.

FAQ 4. Can we promote our best items?
Yes. Use Top listing to move the best items to the top of the category for 7 days (EUR 4.99 or 1 credit) and Highlight for a coloured frame for 10 days (EUR 2.99 or 1 credit). Packages include monthly promotion credits.

FAQ 5. How many promotion credits are included?
Basic includes 2, Plus 10 and Pro 40 Top listing credits per month. Enterprise credits are agreed in the contract. Unused included credits expire at month end.

FAQ 6. Can we buy more credits?
Yes. Credit packs cost EUR 79 for 20 credits or EUR 179 for 50 credits and are valid for 12 months.

FAQ 7. Is there a free trial?
Basic and Plus have a 14-day free trial. Pro has no trial but can be cancelled within 30 days with a full refund of the first month. Enterprise has no trial.

FAQ 8. Are prices including VAT?
No. All prices exclude 19% German VAT.

FAQ 9. Is there a discount for annual payment?
Yes. Annual billing gives two months free on Basic, Plus and Pro.

FAQ 10. Can we switch from a competitor marketplace?
Yes. Businesses that move from a competitor marketplace and show an active listing there get 20% off the first three months of Pro.

FAQ 11. How long does verification take?
Verification usually takes 2 business days. Listings can be prepared as drafts in the meantime.

FAQ 12. What documents are needed for verification?
Legal company name, legal address, VAT ID or tax number, a responsible person and, for real estate agents, proof of the broker permit.

FAQ 13. Can we upload all our stock at once?
Yes, on Plus, Pro and Enterprise with CSV bulk upload, up to 1,000 rows per file.

FAQ 14. Can our shop system sync listings automatically?
Yes, through the API on Pro and Enterprise. Enterprise can also use a custom inventory feed.

FAQ 15. How many people can use one account?
Basic 1 user, Plus 3 users, Pro 10 users, Enterprise unlimited.

FAQ 16. Do sold listings count toward the limit?
No. Only active, visible listings count. Sold, paused, expired and draft listings do not count.

FAQ 17. What happens when we reach the listing limit?
New listings are saved as drafts until older listings expire or the business upgrades. Upgrades are active

immediately.

FAQ 18. How long does a listing stay online?
60 days, unless the business renews it.

FAQ 19. Is there a bundle for furniture stores?
Yes. The Home & Garden Retail bundle costs EUR 20 per month, works with any package and adds a delivery badge, room filters and 5 extra Highlight credits.

FAQ 20. Is there a bundle for car dealers?
Yes. The Vehicles Dealer bundle costs EUR 49 per month and requires at least the Plus package.

FAQ 21. Is there a bundle for real estate agents?
Yes. The Real Estate Agent bundle costs EUR 69 per month, requires at least Plus and needs proof of the broker permit.

FAQ 22. Is there a bundle for service providers?
Yes. The Services Local bundle costs EUR 25 per month and adds a booking request button and a service radius.

FAQ 23. Can we run a brand campaign?
Yes. Display banners cost EUR 8 per 1,000 views with a minimum budget of EUR 500, and Newsletter slots cost EUR 350 per region. Both are sold by the Advertising sales team.

FAQ 24. Which regions have newsletters?
Berlin, Hamburg, Munich, Cologne/Rhine-Ruhr, Frankfurt/Rhine-Main and Stuttgart.

FAQ 25. How can we pay?
SEPA direct debit or credit card for Basic, Plus and Pro; bank transfer on invoice for Enterprise; PayPal for single promotions.

FAQ 26. How do we cancel?
Monthly packages end at the end of the current month. Annual packages end at the end of the 12-month term. Enterprise needs three months' notice before the term ends.

FAQ 27. Do private sellers need a package?
No. Private individuals who occasionally sell their own used items can use the free private account.

FAQ 28. Can we list the same item in several cities?
No. Each item may be listed once; duplicates are removed.

FAQ 29. How fast does sales respond?
SMB, Mid-Market and Advertising sales aim to respond within 1 business day, Enterprise sales within 4 business hours.

FAQ 30. We have a billing problem with our existing account. Who helps?
Seller Support handles existing customers' billing, account and technical questions, usually within 2 business days.
